DIARY NOTES

ADD/A (Colonel White)

23 January 1952

25X1A

25X1A9a

2. [REDACTED] and I spent an hour and a half with Jim Garrison going over some of his problems. I promised Jim that we would do something about his proposed T/O within the next few days.

3. George Carey called to say that two employees at the [REDACTED] had been in a serious automobile accident and were being sent home to the United States. Since they are clerical personnel, it is urgent that OO have immediate replacements. I called George Meloon and told him to give priority to these replacements.

4. Stuart Hedden and I spent an hour and a half with Matt Baird and [REDACTED] reviewing [REDACTED]. It is my opinion that we can, and certainly should, suspend construction on a part of this installation until final determination is made by the Project Review Committee as to what extent we are going to complete the project originally envisaged. Will meet with [REDACTED] Mr. Peel and others tomorrow morning to get further details, but believe that we can save close to [REDACTED] by taking this action.
